Office Action Summary	Application No. 10/626,521	Applicant(s) KONNO ET AL.	
	Examiner M Rachuba	Art Unit 3723	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's election with traverse of species 1 in the reply filed on 14 July 2005 is acknowledged. The traversal is on the ground(s) that the species of claim 7 is included in the species of claim 8. This is not found persuasive because species of claim 8 requires a two-step process, but the species of claim 7 requires only a one step process. The species of claim 7 does not require the particulars of the species of claim 8 for patentability.

2. Claims 1-6 and 8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 14 July 2005.

Claim Objections

3. Claim 1 is objected to because of the following informalities: line 4, "particvles" should be "particles". Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claim 7 is rejected under 35 U.S.C. 102(e) as being anticipated by Chaneyalew et al, US006896591B2. '591 discloses a process for producing a semiconductor device, comprising the step of polishing a surface to be polished of a semiconductor material with an aqueous dispersion for chemical mechanical polishing, the aqueous dispersion for chemical mechanical polishing comprising abrasive grains, wherein the abrasive grains include simple particles composed of at least one selected from inorganic particles and organic particles and composite particles. For example, please refer to column 6, lines 12-24; and column 2, lines 23 through column 3, lines 54.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other similar methods are cited of interest.
